Fledgling

Look up fledgling or fledglings in Wiktionary, the free dictionary. Fledgling or Fledglings may refer to: Fledgling (bird), a young bird that has recently - Fledgling or Fledglings may refer to:

Fledgling (Butler novel)

Fledgling is a science fiction vampire novel by American writer Octavia E. Butler, published in 2005. It was the author's final book published before - Fledgling is a science fiction vampire novel by American writer Octavia E. Butler, published in 2005. It was the author's final book published before her death in 2006.

Fergie's Fledglings

Fergie's Fledglings were a group of football players recruited by Manchester United under the management of Sir Alex Ferguson (often nicknamed "Fergie") - Fergie's Fledglings were a group of football players recruited by Manchester United under the management of Sir Alex Ferguson (often nicknamed "Fergie") and trained by assistant coaches Brian Kidd and Eric Harrison, before eventually progressing to the first team during the 1990s. The most successful generation of the Fledglings was also known as the Class of '92.

The alliteration in the term is a homage to the Busby Babes, the famously youthful Manchester United team assembled by the club's former manager Sir Matt Busby and his assistant coach Jimmy Murphy during the 1950s.

Fledge

dependent upon parental care and feeding is called a fledgling. People often want to help fledglings, as they appear vulnerable, but it is best to leave - Fledging is the stage in a flying animal's life between hatching or birth and becoming capable of flight.

This term is most frequently applied to birds, but is also used for bats. For altricial birds, those that spend more time in vulnerable condition in the nest, the nestling and fledging stage can be the same. For precocial birds, those that develop and leave the nest quickly, a short nestling stage precedes a longer fledging stage.

All birds are considered to have fledged when the feathers and wing muscles are sufficiently developed for flight. A young bird that has recently fledged but is still dependent upon parental care and feeding is called a fledgling. People often want to help fledglings, as they appear vulnerable, but it is best to leave them alone. The USA National Phenology Network defines the phenophase (or life cycle stage) of fledged young for birds as "One or more young are seen recently departed from the nest. This includes young incapable of sustained flight and young which are still dependent on adults."

In many species, parents continue to care for their fledged young, either by leading them to food sources, or feeding them. Birds are vulnerable after they have left the nest, but before they can fly, though once fledged their chances of survival increase dramatically.

One species, the ancient murrelet, fledges two days after hatching, running from its burrow to the ocean and its calling parents. Once it reaches the ocean, its parents care for it for several weeks. Other species, such as guillemots and terns, leave the nesting site while they are still unable to fly. The fledging behavior of the guillemot is spectacular; the adult leads the chick to the edge of the cliff, where the colony is located, and the chick will then launch itself off, attempting to fly as far as possible, before crash landing on the ocean.

FTSE Fledgling Index

The FTSE Fledgling Index comprises companies listed on the main market of the London Stock Exchange (LSE) which qualify as eligible for inclusion in the - The FTSE Fledgling Index comprises companies listed on the main market of the London Stock Exchange (LSE) which qualify as eligible for inclusion in the FTSE UK series but are too small to be included in the FTSE All-Share Index. There is no liquidity requirement for constituents of the FTSE Fledgling Index.

This Index is calculated on an end-of-day basis.

Harrier (bird)

Harriers characteristically hunt by flying low over open ground, - A harrier is a member of the genus *Circus* in Accipitridae, a family of birds of prey. Harriers characteristically hunt by flying low over open ground, feeding on small mammals, reptiles, or birds. The young of the species are sometimes referred to as ring-tail harriers. They are distinctive with long wings, a long narrow tail, the slow and low flight over grasslands and skull peculiarities. The harriers are thought to have diversified with the expansion of grasslands and the emergence of C4 grasses about 6 to 8 million years ago during the Late Miocene and Pliocene.

Curtiss Fledgling

The Curtiss Fledgling, known internally to Curtiss as the Model 48 and Model 51 is a trainer aircraft developed for the United States Navy in the late - The Curtiss Fledgling, known internally to Curtiss as the Model 48 and Model 51 is a trainer aircraft developed for the United States Navy in the late 1920s and known in that service as the N2C.

House of Night

adventures of Zoey Redbird, a 16-year-old girl who is "marked", becomes a fledgling vampyre and is required to attend the House of Night boarding school in - House of Night is a series of young adult vampire-themed fantasy novels by American author P. C. Cast and her daughter Kristin Cast. It follows the adventures of Zoey Redbird, a 16-year-old girl who is "marked", becomes a fledgling vampyre and is required to attend the House of Night boarding school in Tulsa, Oklahoma. Books in the series have been on the New York Times Best Seller list for 63 weeks and have sold over seven million copies in North America, and more than ten million books worldwide, in 39 countries.

Diana Barrett

a son and two daughters. Barrett is the president and founder of the Fledgling Fund, a philanthropic organization that supports documentary films that - Diana Barrett (born 1944 or 1945) is an American philanthropist and former business professor. She is married to television host Bob Vila.

Vampire: The Masquerade – Bloodlines

and follows a human who is killed and revived as a fledgling vampire. The game depicts the fledgling's journey through early 21st-century Los Angeles to - Vampire: The Masquerade – Bloodlines is a 2004 action role-playing video game developed by Troika Games and published by Activision for Microsoft Windows. Set in White Wolf Publishing's World of Darkness, the game is based on White Wolf's role-playing game Vampire: The Masquerade and follows a human who is killed and revived as a fledgling vampire. The game depicts the fledgling's journey through early 21st-century Los Angeles to uncover the truth behind a recently discovered relic that heralds the end of all vampires.

Bloodlines is presented from first-person and third-person perspectives. The player assigns their character to one of several vampire clans—each with unique powers— customizes their combat and dialog abilities, and progresses through Bloodlines using violent and nonviolent methods. The selection of clan affects how the player is perceived in the game world and which powers and abilities they possess; this opens up different avenues of exploration and methods of interacting with or manipulating other characters. The player can complete side missions away from the primary storyline by moving freely between the available hubs: Santa Monica, Hollywood, downtown Los Angeles, and Chinatown.

Troika's 32-member team began developing Bloodlines in November 2001 as an indirect sequel to the previous year's Vampire: The Masquerade – Redemption. Troika used Valve's Source game engine, then in development, which was used for Valve's own Half-Life 2. The game's production was turbulent, as the design's scope exceeded the available resources, and the team was left without a producer for nearly a year until Activision appointed David Mullich to the role, where he found designs and levels unfinished or abandoned. After three years in development with no end in sight and running over budget, Activision set a strict deadline for completion, and Bloodlines was released incomplete in November 2004.

Released in competition with Half-Life 2 and several other titles, Bloodlines sold fewer than 80,000 copies during its initial release, which was considered a poor performance. It divided critics at the time; although they praised the game's writing and the scale of choice, they criticized its technical flaws. It was Troika Games' last production before its failure in early 2005, when it could not secure additional projects. The game has a cult following as a rarely replicated example of gameplay and narrative, and contemporary reception recognizes it as a flawed masterpiece. Since its original release, Bloodlines received post-release support from fans, supplying unofficial fixes and re-adding unused content. A sequel, Vampire: The Masquerade – Bloodlines 2, is in development.
