## The Boy and the Heron

*The Boy and the Heron* (Japanese: ??????????, Hepburn: Kimitachi wa D? Ikiru ka; lit. 'How Do You Live?') is a 2023 Japanese animated fantasy film written and directed by Hayao Miyazaki. Produced by Studio Ghibli, the film's Japanese title references Genzaburō Yoshino's 1937 novel *How Do You Live?* but is not an adaptation of it. The film stars the voices of Soma Santoki, Masaki Suda, Ko Shibasaki, Aimee Yoon, Yoshino Kimura, Takuya Kimura, Kaoru Kobayashi, and Shinobu Otake. Described as a "big, fantastical film", it follows a boy named Mahito Maki who moves to the countryside after his mother's death, discovers an abandoned tower near his new home, and enters a fantastical world with a talking grey heron.

Miyazaki announced his retirement in September 2013 but later reversed this decision after working on the short film *Boro the Caterpillar* (2018). He began storyboarding for a new feature-length project in July 2016, and official production began in May 2017. The film's title was announced in October 2017, targeting a release around the 2020 Summer Olympics. By May 2020, 36 minutes of the film had been hand-drawn by 60 animators, with no set deadline. Production spanned approximately seven years, facing delays as it navigated challenges related to the COVID-19 pandemic and Miyazaki's slowed animation pace, before nearing completion in October 2022. Financing for the project involved streaming deals for previous Ghibli films. According to producer Toshio Suzuki, *The Boy and the Heron* is the most expensive film ever produced in Japan. The screenplay draws heavily from Miyazaki's childhood and explores themes of coming of age and coping with a world marked by conflict and loss. Joe Hisaishi composed the film's score, while Kenshi Yonezu wrote and sang the film's theme song "Spinning Globe".

*The Boy and the Heron* was theatrically released in Japan on July 14, 2023, by Toho, and was screened in both traditional theaters and other premium formats such as IMAX. The release was noted for its intentional absence of any promotion, with Ghibli choosing not to release any trailers, images, synopsis, or casting details of the film in advance of its Japanese premiere except a single poster. The film received critical acclaim and grossed US\$294.2 million worldwide, making it the fifth highest-grossing Japanese film of all time. Among its numerous accolades, the film won Best Animated Feature Film at the Academy Awards, the BAFTA Awards, the Golden Globe Awards, and the Japanese Film Academy.

## 2017 Broadband Consumer Privacy Proposal repeal

J. Carlton. "Protect Your Online Privacy with a VPN". Iqbal, Maneeza (29 March 2017). "Here's how you can still protect your web history from marketers" - On 28 March 2017, the United States House of Representatives passed a resolution of disapproval (S.J.Res 34) to overturn the Broadband Consumer Privacy Proposal privacy law by the Federal Communications Commission (FCC) and was expected to be approved by United States' President Donald Trump. It was passed with 215 Republican votes against 205 votes of disapproval.

The repealed privacy protections, once approved in 2016, sought to regulate what companies can do with data of customers' browsing habits, communication contents, app usage history, location data and social security numbers and safeguard customer data against hackers and thieves.

Supporters of the vote argued that the privacy regulations stifle innovation by forcing Internet providers to abide by unreasonably strict guidelines.

Due to the repeal, Internet service providers (ISP) like Comcast, AT&T and Verizon may sell web browsing histories and other sensitive data directly to marketers, financial firms and other companies without consumers' consent. Furthermore, the FCC will be forbidden from issuing similar rules in the future.
