or five HVAC particulate air filters that form a cube and a box fan to draw air through the filters. The seams of the cube are sealed with duct tape. A 2022 study found the clean air delivery rate on the five-filter design was between 600 and 850 cubic feet (17–24 m³) per minute (depending on fan speed), while costing roughly a tenth of commercial air filters. Engineers Richard Corsi and Jim Rosenthal created the five-filter design during the COVID-19 pandemic, with the goal of reducing the risk of infection by reducing the levels of airborne viral particles in indoor settings.

June 1962 Alcatraz escape

blades found on the prison grounds, metal spoons from the mess hall, and an electric drill improvised from the motor of a vacuum cleaner. The men concealed - On the night of June 11, 1962, inmates Frank Morris and brothers Clarence and John Anglin escaped from Alcatraz Federal Penitentiary, a maximum-security prison located on Alcatraz Island in San Francisco Bay, California, United States. Late on the night of June 11, the three men tucked papier-mâché model heads resembling their own likenesses into their beds, broke out of the main prison building via ventilation ducts and an unguarded utility corridor, and departed the island aboard an improvised inflatable raft to an uncertain fate. A fourth conspirator, Allen West, failed in his escape attempt and remained behind.

Hundreds of leads were pursued by the Federal Bureau of Investigation (FBI) and local law enforcement officials in the ensuing years, but no conclusive evidence has ever surfaced regarding the fate of the three men. In 1979, the FBI officially concluded, on the basis of circumstantial evidence and a preponderance of expert opinion, that the three men drowned in the frigid waters of San Francisco Bay while attempting to reach the mainland. The U.S. Marshals Service case file remains open and active, and Morris and the Anglin brothers remain on its wanted list. Circumstantial and material evidence has continued to surface, stoking new debates on the fate of the three inmates. Numerous theories of widely varying plausibility have been proposed by authorities, reporters, family members, and amateur enthusiasts.
