Radiator (engine cooling)

Internal combustion engine (ICE) List of auto parts Waste heat "What type of cooling fan should I use?". Summit Racing Equipment. US. 2020. Retrieved March - Radiators are heat exchangers used for cooling internal combustion engines, mainly in automobiles but also in piston-engined aircraft, railway locomotives, motorcycles, stationary generating plants or any similar use of such an engine.

Internal combustion engines are often cooled by circulating a liquid called engine coolant through the engine block and cylinder head where it is heated, then through a radiator where it loses heat to the atmosphere, and then returned to the engine. Engine coolant is usually water-based, but may also be oil. It is common to employ a water pump to force the engine coolant to circulate, and also for an axial fan to force air through the radiator.

Jeremy Clarkson

"Mazda MX-5: It's far too cool for you, Mr Footballer". The Sunday Times. London. Retrieved 18 January 2025. "Jeremy Clarkson's Cars". Motoring Research. 21 - Jeremy Charles Robert Clarkson (born 11 April 1960) is an English television presenter, journalist, farmer, and author who specialises in motoring. He is best known for hosting the motoring television programmes Top Gear (2002–2015) and The Grand Tour (2016–2024) alongside Richard Hammond and James May. He also currently writes weekly columns for The Sunday Times and The Sun. Clarkson hosts the ITV game show Who Wants to Be a Millionaire? (2018–present), and stars in the farming documentary show Clarkson's Farm (2021–present).

From a career as a local journalist in northern England, Clarkson rose to public prominence as a presenter of the original format of Top Gear in 1988. Since the mid-1990s, he has become a recognised public personality, regularly appearing on British television presenting his own shows for the BBC and appearing as a guest on other shows. As well as motoring, Clarkson has produced programmes on subjects such as history and engineering; he has also written numerous books, primarily on cars. In 1998, he hosted the first series of Robot Wars. From 1998 to 2000, he also hosted his own talk show, entitled Clarkson.

In 2015, the BBC elected not to renew Clarkson's contract after he assaulted a Top Gear producer while filming on location. That year, Clarkson and his Top Gear co-presenters and producer Andy Wilman formed the production company W. Chump & Sons to produce The Grand Tour for Amazon Prime Video.

Clarkson's opinionated but humorous tongue-in-cheek writing and presenting style has often provoked a public reaction. His actions, both privately and as a Top Gear presenter, have also sometimes resulted in criticism from the media, politicians, pressure groups, and the public. He also has a significant public following, being credited as a major factor in the resurgence of Top Gear as one of the most popular shows

on the BBC. In 2006, the British public ranked him number 19 in ITV's poll of TV's 50 Greatest Stars.

Since 2019, he has become a farmer at Diddly Squat Farm for his show, Clarkson's Farm. The show received a positive reception and became a popular show on Prime Video upon its release. In May 2024, the "Clarkson's clause" amendment, named after Clarkson, was introduced; this clause makes it easier to convert unused agricultural buildings to commercial usage, something he did in Season 2 of the show when planning permission for his restaurant was denied.

The Matrix

level you want to bring to it". Darren Aronofsky commented, "I walked out of *The Matrix* ... and I was thinking, "What kind of science fiction movie can people - *The Matrix* is a 1999 science fiction action film written and directed by the Wachowskis. It is the first installment in the *Matrix* film series, starring Keanu Reeves, Laurence Fishburne, Carrie-Anne Moss, Hugo Weaving, and Joe Pantoliano. It depicts a dystopian future in which humanity is unknowingly trapped inside the Matrix, a simulated reality created by intelligent machines. Believing computer hacker Neo to be "the One" prophesied to defeat them, Morpheus recruits him into a rebellion against the machines.

Following the success of *Bound* (1996), Warner Bros. gave the go-ahead for *The Matrix* after the Wachowskis sent an edit of the film's opening minutes. Action scenes were influenced by anime and martial arts films, (particularly fight choreographers and wire fu techniques from Hong Kong action cinema). Other influences include Plato's cave and 1990s Telnet hacker communities. The film popularized terms such as the red pill, and popularised a visual effect known as "bullet time", in which a character's heightened perception is represented by allowing the action within a shot to progress in slow motion while the camera appears to move through the scene at normal speed.

The Matrix opened in theaters in the United States on March 31, 1999, to widespread acclaim from critics, who praised its innovative visual effects, action sequences, cinematography and entertainment value. The film was a box office success, grossing over \$460 million on a \$63 million budget, becoming the highest-grossing Warner Bros. film of 1999 and the fourth-highest-grossing film of that year. The film received nominations at the 72nd Academy Awards for Best Visual Effects, Best Film Editing, Best Sound and Best

Sound Effects Editing, winning all four categories. The film was also the recipient of numerous other accolades, including Best Sound and Best Special Visual Effects at the 53rd British Academy Film Awards, and the Wachowskis were awarded Best Director and Best Science Fiction Film at the 26th Saturn Awards. The Matrix is considered to be among the greatest science fiction films of all time, and in 2012, the film was selected for preservation in the United States National Film Registry by the Library of Congress for being "culturally, historically, and aesthetically significant".

The film's success led to two sequels by the Wachowskis, both released in 2003, *The Matrix Reloaded* and *The Matrix Revolutions*. The Matrix franchise was further expanded through the production of comic books, video games and an animated anthology film, *The Animatrix*, with which the Wachowskis were heavily involved. The franchise has also inspired books and theories expanding on some of the religious and philosophical ideas alluded to in the films. A fourth film, titled *The Matrix Resurrections*, directed solely by Lana Wachowski was released in 2021.

Eminem

Jonathan Ross, he stated "You know, I love music so much. This is my passion, this is what I want to do. Not saying that I won't do a movie ever again - Marshall Bruce Mathers III (born October 17, 1972), known professionally as Eminem, is an American rapper, songwriter, and record producer. Regarded as one of the greatest and most influential rappers of all time, he is credited with popularizing hip-hop in Middle America and breaking down racial barriers for the acceptance of white rappers in popular music. While much of his transgressive work during the late 1990s and early 2000s made him a controversial figure, he came to be a representation of popular angst of the American underclass.

After the release of his debut album *Infinite* (1996) and the extended play *Slim Shady EP* (1997), Eminem signed with Dr. Dre's Aftermath Entertainment and subsequently achieved mainstream popularity in 1999 with *The Slim Shady LP*. His next two releases, *The Marshall Mathers LP* (2000) and *The Eminem Show* (2002), became worldwide successes. The latter was the best-selling album worldwide of that year, and the best selling hip-hop album of all time. Following the release of *Encore* (2004), Eminem took a hiatus due in part to struggles with prescription drug addiction. He returned to the music industry with the releases of *Relapse* (2009) and *Recovery* (2010), the latter becoming the best-selling album worldwide of 2010. Each of his subsequent releases—*The Marshall Mathers LP 2* (2013), *Revival* (2017), *Kamikaze* (2018), *Music to Be Murdered By* (2020), and *The Death of Slim Shady (Coup de Grâce)* (2024)—have debuted atop the US Billboard 200.

Eminem was also a member of the hip-hop groups New Jacks, Soul Intent, Outsidaz, and D12, and has collaborated with fellow Detroit-based rapper Royce da 5'9" to form the duo Bad Meets Evil. He starred in the 2002 musical drama film *8 Mile*, in which he played a dramatized version of himself. "Lose Yourself", a song from its soundtrack, topped the Billboard Hot 100 for 12 weeks—the most for a solo rap song—and won an Academy Award for Best Original Song, making him the first hip-hop artist ever to win the award. Eminem also co-founded Shady Records, which helped launch the careers of artists such as D12, 50 Cent, and Obie Trice. He established his own Sirius XM Radio channel, Shade 45, and opened a restaurant, Mom's Spaghetti.

Eminem is among the best-selling music artists of all time, with estimated worldwide sales of over 220 million records. He was the first musical act to have ten albums consecutively debut at number one on the Billboard 200 chart, and has had five number-one singles on the Billboard Hot 100. He is one of the highest-certified music artists in the United States, with three of his albums and four of his singles being certified diamond by the Recording Industry Association of America (RIAA). In addition to his Oscar, Eminem's other accolades include 15 Grammy Awards, a Primetime Emmy Award, eight American Music Awards, 17

Billboard Music Awards, and an induction into the Rock and Roll Hall of Fame in his first year of eligibility. Billboard named him the Artist of the Decade (2000s) and Rolling Stone ranked him among the greatest artists and greatest songwriters of all time.
