When you buy your first trunk, put it in the ground or in a pot.

Watering is always an issue.

The best thing to use is a drip system as it's inexpensive and keeps the trunk damp 24/7.

Place in shade or semi-shade, they don't do as well in full sun.

If you keep them outside, watch out for low temperatures.

We use oak leaves instead of straw to protect our tree ferns from frost.

Press them gently into the crown and in spring when the crosiers first appear, they will push the leaves out themselves.

If your tree fern is potted and you want to bring it inside, put in a light and airy space.

Remember to always water them during the winter as well.

How to care for your lawn in autumn | Grow at Home | RHS - How to care for your lawn in autumn | Grow at Home | RHS 16 minutes - Turf expert Nigel Downs shares his top tips for Autumn lawn care. There's quite a lot here, so feel free to skip to the part most ...
