

Who Was Ronald Reagan

Death and state funeral of Ronald Reagan

On June 5, 2004, Ronald Reagan, the 40th president of the United States and the 33rd governor of California, died after having Alzheimer's disease for - On June 5, 2004, Ronald Reagan, the 40th president of the United States and the 33rd governor of California, died after having Alzheimer's disease for almost a decade. Reagan was the first former U.S. president to die in 10 years since Richard Nixon in 1994. At the age of 93 years, 120 days, Reagan was the longest-lived U.S. president in history at the time of his death, a record which has since been surpassed by Gerald Ford, George H. W. Bush, and Jimmy Carter. His seven-day state funeral followed. After Reagan's death, his body was taken from his Bel Air home to the Kingsley and Gates Funeral Home in Santa Monica, California, to prepare the body for burial. On June 7, Reagan's casket was transported by hearse and displayed at the Ronald Reagan Presidential Library in Simi Valley, California, then flown to Washington, D.C., on June 9 for a service, public viewing and tributes at the U.S. Capitol.

After lying in state for 34 hours in the Capitol rotunda, a state funeral service was conducted at the Washington National Cathedral on June 11, the day when President George W. Bush declared a national day of mourning. Later that day, after the service, Reagan's casket was transported back to California for interment at the Reagan Presidential Library. The state funeral was executed by the Military District of Washington (MDW). Reagan was the first former U.S. president to die in the 21st century.

Ronald Reagan Presidential Library

The Ronald Reagan Presidential Library is the presidential library and burial site of Ronald Reagan, the 40th president of the United States (1981–1989) - The Ronald Reagan Presidential Library is the presidential library and burial site of Ronald Reagan, the 40th president of the United States (1981–1989), and his wife Nancy Reagan. Located in Simi Valley, California, the library is administered by the National Archives and Records Administration (NARA).

The library opened in 1991 and houses the repository of presidential records from the Reagan administration. The library contains millions of documents, photographs, films and tapes. It also contains memorabilia and a permanent exhibit of Ronald Reagan's life.

USS Ronald Reagan

of Ronald Reagan, President of the United States from 1981 to 1989. She was built at Newport News Shipbuilding in Newport News, Virginia, and was commissioned - USS Ronald Reagan (CVN-76) is a Nimitz-class, nuclear-powered supercarrier in the service of the United States Navy. The ninth ship of her class, she is named in honor of Ronald Reagan, President of the United States from 1981 to 1989. She was built at Newport News Shipbuilding in Newport News, Virginia, and was commissioned on 12 July 2003.

Ronald Reagan made five deployments to the Pacific and Middle East between 2006 and 2011 while based at Naval Air Station North Island. In October 2015, Ronald Reagan replaced USS George Washington as the flagship of Carrier Strike Group 5, the only forward-based carrier strike group homeported at Yokosuka, Japan, as part of the United States Seventh Fleet. Since 2016, Ronald Reagan has embarked on short annual summer patrols of the Western Pacific in the United States Seventh Fleet area of operation.

Ron Reagan

Ronald Prescott Reagan (born May 20, 1958) is an American political commentator and broadcaster. He is a former radio host and political analyst for KIRO - Ronald Prescott Reagan (born May 20, 1958) is an American political commentator and broadcaster. He is a former radio host and political analyst for KIRO and Air America Radio, with which he hosted his own daily three-hour show. He has also been a contributor to MSNBC.

His progressive views contrast with those of his conservative father, President Ronald Reagan. He has been an outspoken critic of the modern-day Republican Party and has said his father would be "ashamed" over the influence of Donald Trump in the Republican Party.

Presidency of Ronald Reagan

Ronald Reagan's tenure as the 40th president of the United States began with his first inauguration on January 20, 1981, and ended on January 20, 1989 - Ronald Reagan's tenure as the 40th president of the United States began with his first inauguration on January 20, 1981, and ended on January 20, 1989. Reagan, a Republican from California, took office following his landslide victory over Democratic incumbent president Jimmy Carter and independent congressman John B. Anderson in the 1980 presidential election. Four years later in the 1984 presidential election, he defeated Democratic former vice president Walter Mondale to win re-election in a larger landslide. Reagan served two terms and was succeeded by his vice president, George H. W. Bush, who won the 1988 presidential election. Reagan's 1980 landslide election resulted from a dramatic conservative shift to the right in American politics, including a loss of confidence in liberal, New Deal, and Great Society programs and priorities that had dominated the national agenda since the 1930s.

Domestically, the Reagan administration enacted a major tax cut, sought to cut non-military spending, and eliminated federal regulations. The administration's economic policies, known as "Reaganomics", were inspired by supply-side economics. The combination of tax cuts and an increase in defense spending led to budget deficits, and the federal debt increased significantly during Reagan's tenure. Reagan signed the Tax Reform Act of 1986, simplifying the tax code by reducing rates and removing several tax breaks, and the Immigration Reform and Control Act of 1986, which enacted sweeping changes to U.S. immigration law and granted amnesty to three million illegal immigrants. Reagan also appointed more federal judges than any other president, including four Supreme Court Justices.

Reagan's foreign policy stance was resolutely anti-communist. Its plan of action, known as the Reagan Doctrine, sought to roll back the global influence of the Soviet Union in an attempt to end the Cold War. Under his doctrine, the Reagan administration initiated a massive buildup of the United States military; promoted new technologies such as missile defense systems; and in 1983 undertook an invasion of Grenada, the first major overseas action by U.S. troops since the end of the Vietnam War. The administration also created controversy by granting aid to paramilitary forces seeking to overthrow leftist governments, particularly in war-torn Central America and Afghanistan. Specifically, the Reagan administration engaged in covert arms sales to Iran to fund Contra rebels in Nicaragua that were fighting to overthrow their nation's socialist government. The resulting Iran–Contra affair led to the conviction or resignation of several administration officials. During Reagan's second term, he worked with Soviet leader Mikhail Gorbachev to sign a major arms control agreement. In 1986, Congress overrode Reagan's veto of a bill intended to implement economic sanctions against South Africa's apartheid regime.

Historians and political scientists generally rank Reagan in the upper tier of American presidents, and consider him to be one of the most important presidents since Franklin D. Roosevelt. Supporters of Reagan's presidency have pointed to his contributions to the economic recovery of the 1980s, the peaceful end of the Cold War, and a broader restoration of American confidence. Reagan's presidency has also received criticism for rising budget deficits and wealth inequality during and after his presidency. Due to Reagan's popularity

with the public and advocacy of American conservatism, some historians have described the period during and after his presidency as the Reagan era.

Attempted assassination of Ronald Reagan

On March 30, 1981, Ronald Reagan, the president of the United States, was shot and wounded by John Hinckley Jr. in Washington, D.C., as Reagan was returning to the White House. On March 30, 1981, Ronald Reagan, the president of the United States, was shot and wounded by John Hinckley Jr. in Washington, D.C., as Reagan was returning to his limousine after a speaking engagement at the Washington Hilton hotel. Hinckley believed the attack would impress the actress Jodie Foster, with whom he had developed an erotomanic obsession after viewing her in the 1976 film *Taxi Driver*.

Reagan was seriously wounded by a revolver bullet that ricocheted off the side of the presidential limousine and hit him in the left underarm, breaking a rib, puncturing a lung, and causing serious internal bleeding. He underwent emergency exploratory surgery at George Washington University Hospital, and was released on April 11. No formal invocation of sections 3 or 4 of the U.S. Constitution's Twenty-fifth Amendment (concerning the vice president assuming the president's powers and duties) took place, though Secretary of State Alexander Haig stated that he was "in control here" at the White House until Vice President George H. W. Bush returned to Washington from Fort Worth, Texas. Haig was fourth in the line of succession after Bush, Speaker of the House Tip O'Neill, and President pro tempore of the Senate Strom Thurmond.

White House press secretary James Brady, Secret Service agent Tim McCarthy, and D.C. police officer Thomas Delahanty were also wounded. All three survived, but Brady suffered brain damage and was permanently disabled; he died in 2014 as a result of his injury.

On June 21, 1982, Hinckley was found not guilty by reason of insanity on charges of attempting to assassinate the president. He remained confined to St. Elizabeths Hospital, a psychiatric facility in Washington, D.C. In 2015, federal prosecutors announced that they would not charge Hinckley with Brady's death, despite the medical examiner's classification of his death as a homicide. Hinckley was discharged from his institutional psychiatric care in 2016.

Ronald Reagan

Ronald Wilson Reagan (February 6, 1911 – June 5, 2004) was an American politician and actor who served as the 40th president of the United States from 1981 to 1989. Ronald Wilson Reagan (February 6, 1911 – June 5, 2004) was an American politician and actor who served as the 40th president of the United States from 1981 to 1989. A member of the Republican Party, he became an important figure in the American conservative movement. The period encompassing his presidency is known as the Reagan era.

Born in Illinois, Reagan graduated from Eureka College in 1932 and was hired the next year as a sports broadcaster in Iowa. In 1937, he moved to California where he became a well-known film actor. During his acting career, Reagan was president of the Screen Actors Guild twice from 1947 to 1952 and from 1959 to 1960. In the 1950s, he hosted General Electric Theater and worked as a motivational speaker for General Electric. During the 1964 presidential election, Reagan's "A Time for Choosing" speech launched his rise as a leading conservative figure. After being elected governor of California in 1966, he raised state taxes, turned the state budget deficit into a surplus and implemented harsh crackdowns on university protests. Following his loss to Gerald Ford in the 1976 Republican Party presidential primaries, Reagan won the Republican Party's nomination and then obtained a landslide victory over President Jimmy Carter in the 1980 presidential election.

In his first term as president, Reagan began implementing "Reaganomics", a policy involving economic deregulation and cuts in both taxes and government spending during a period of stagflation. On the world stage, he escalated the arms race, increased military spending, transitioned Cold War policy away from the policies of détente with the Soviet Union, and ordered the 1983 invasion of Grenada. Reagan also survived an assassination attempt, fought public-sector labor unions, expanded the war on drugs, and was slow to respond to the AIDS epidemic. In the 1984 presidential election, he defeated former vice president Walter Mondale in another landslide victory. Foreign affairs dominated Reagan's second term, including the 1986 bombing of Libya, the secret and illegal sale of arms to Iran to fund the Contras, and engaging in negotiations with Soviet leader Mikhail Gorbachev, which culminated in the Intermediate-Range Nuclear Forces Treaty.

Reagan left the presidency in 1989 with the American economy having seen a significant reduction of inflation, a fall in the unemployment rate, and the longest peacetime economic expansion in U.S. history at that time. Conversely, despite cuts to domestic discretionary spending, the national debt had nearly tripled since 1981 as a result of his tax cuts and increased military spending. Reagan's foreign policies also contributed to the end of the Cold War. Though he planned an active post-presidency, it was hindered after he was diagnosed with Alzheimer's disease in 1994, and his physical and mental capacities gradually deteriorated, leading to his death in 2004. His tenure constituted a realignment toward conservative policies in the United States, and he is often considered an icon of American conservatism. Historical rankings of U.S. presidents have typically placed Reagan in the middle to upper tier, and his post-presidential approval ratings by the general public are usually high.

Jack Reagan

John Edward Reagan (July 13, 1883 – May 18, 1941) was an American salesman. He was the father of U.S. president Ronald Reagan. Jack's paternal grandfather - John Edward Reagan (July 13, 1883 – May 18, 1941) was an American salesman. He was the father of U.S. president Ronald Reagan.

Maureen Reagan

Elizabeth Reagan (January 4, 1941 – August 8, 2001) was an American political activist and the first child of U.S. president Ronald Reagan and his first - Maureen Elizabeth Reagan (January 4, 1941 – August 8, 2001) was an American political activist and the first child of U.S. president Ronald Reagan and his first wife, actress Jane Wyman. Her younger brother is Michael Reagan and her half-siblings are Patti Davis and Ron Reagan, from her father's second marriage (to Nancy Reagan).

Nelle Wilson Reagan

Wilson Reagan (July 24, 1883 – July 25, 1962) was the mother of 40th United States President Ronald Reagan and his older brother Neil Reagan. Nelle was born - Nelle Clyde Wilson Reagan (July 24, 1883 – July 25, 1962) was the mother of 40th United States President Ronald Reagan and his older brother Neil Reagan.
