2024

2024 January February March April May June July August September October November December 2024 (MMXXIV) was a leap year starting on Monday of the Gregorian - 2024 (MMXXIV) was a leap year starting on Monday of the Gregorian calendar, the 2024th year of the Common Era (CE) and Anno Domini (AD) designations, the 24th year of the 3rd millennium and the 21st century, and the 5th year of the 2020s decade.

The year saw the continuation of major armed conflicts, including the Russian invasion of Ukraine, the Myanmar civil war, the Sudanese civil war, and the Islamist insurgency in the Sahel. Israel's war on Gaza led to widespread protests and spillover conflicts into numerous other countries, most notably Lebanon, which was invaded by Israel in October. This followed an intensification of the ongoing conflict between Israel and Hezbollah. In September, Israel escalated an offensive against the group, which resulted in the killing of the Secretary-General, Hassan Nasrallah. Ismail Haniyeh, the political leader of Hamas, had also been assassinated in the Iranian capital Tehran in July, and his successor Yahya Sinwar was killed by the Israel Defense Forces in October. In November, heavy fighting resumed in the Syrian civil war, leading to the toppling of Ba'athist Syria, with Bashar al-Assad fleeing Syria in December. The year also saw a rise in activity by the Houthi movement which contributed to a crisis in the Red Sea that impacted global shipping.

Approximately 80 countries, representing around 4 billion people, conducted national elections throughout the course of the year, including eight out of the ten most populous countries (Bangladesh, Brazil, Pakistan, Russia, India, Mexico, Indonesia, and the United States) as well as France, the United Kingdom, and Japan. The European Parliament also held elections. Among democracies, over 80% saw the incumbent party lose support compared to the last election, including many significant losses. In countries like Japan, Botswana, and South Africa, incumbent parties that had dominated domestic politics for decades lost their majorities and either relinquished power or are holding on through coalitions with minor parties. Bassirou Diomaye Faye won the 2024 Senegalese presidential election, becoming the first opposition candidate to win in the first round since the country's independence. In Sri Lanka, voters delivered a landslide victory to the National People's Power, previously a minor party. Republican Donald Trump won the 2024 United States presidential election, becoming the first U.S. president to be elected to a nonconsecutive second term since 1892. The French and German governments lost votes of no confidence. In December, South Korean president Yoon Suk Yeol's attempt to declare and impose martial law was thwarted by members of parliament, sparking a political crisis that led to his impeachment and the impeachment of acting president Han Duck-soo.

2024 United States presidential election

The Republican Party's ticket—Donald Trump, who served as the 45th president of the United States from 2017 to 2021, and JD Vance, a U.S. senator from Ohio—defeated the Democratic Party's ticket—Kamala Harris, the incumbent U.S. vice president, and Tim Walz, the incumbent governor of Minnesota.

The incumbent president, Democrat Joe Biden, initially ran for re-election as the party's presumptive nominee, facing little opposition and easily defeating Representative Dean Phillips of Minnesota during the Democratic primaries; however, what was broadly considered a poor debate performance in June 2024 intensified concerns about his age and health, and led to calls within his party for him to leave the race. After initially declining to do so, Biden withdrew on July 21, becoming the first eligible incumbent president to

withdraw since Lyndon B. Johnson in 1968. Biden endorsed Harris, who was voted the party's nominee by the delegates on August 5 and became the first nominee who did not participate in the primaries since Hubert Humphrey in 1968. Harris selected Walz as her running mate.

Trump, who lost the 2020 presidential election to Biden, ran for reelection to a nonconsecutive second term. He was shot in the ear in an assassination attempt on July 13, 2024. Trump was nominated as the Republican Party's presidential candidate during the 2024 Republican National Convention alongside his running mate, Vance. The Trump campaign ticket supported mass deportation of undocumented immigrants; an isolationist "America First" foreign policy agenda with support of Israel in the Gaza war and skepticism of Ukraine in its war with Russia; anti-transgender policies; and tariffs. The campaign also made false and misleading statements, including claims of electoral fraud in 2020. Trump's political movement was seen by some historians and some former Trump administrators as authoritarian.

Trump won the Electoral College with 312 electoral votes to Harris' 226. Trump won every swing state, including the first win of Nevada by Republicans since 2004. Trump won the national popular vote with a plurality of 49.8%, making him the first Republican to win the popular vote since George W. Bush in 2004. Trump became the second person to be elected to a nonconsecutive second term as president of the United States, the first being Democrat Grover Cleveland in 1892. Analysts attributed the outcome to the 2021–2023 inflation surge, a global anti-incumbent wave, the unpopularity of the Biden administration, and Trump's gains with the working class.

Manchester City entered the season as four-time defending champions, but were dethroned by Liverpool, who emerged as Premier League champions for the second time with four games to spare, equalling Manchester United's record of 20 English league titles.

The fixtures were released on 18 June 2024, consisting of 33 weekend rounds, four midweek rounds, and one Bank Holiday matchweek. The two-week winter break, in effect since the 2019–20 season, was scrapped starting this season in favour of a longer summer break for the players. Longer intervals between matches were added for the holiday period between Christmas and New Year's Day, with no matches held on Christmas Eve.

The summer transfer window opened on 14 June 2024 and closed at 23:00 BST on 30 August 2024. The winter window opened on 1 January 2025 and closed at 23:00 GMT on 3 February 2025. This was also the last season the Nike sponsor match ball for the top flight was used; Puma are set to become the official ball supplier of the top flight starting from the 2025–26 season.

This season was the first to use semi-automated offside technology, as Premier League clubs unanimously agreed to its introduction. The technology was planned to be introduced after one of the autumn international breaks, but was delayed to further test the technology. It was tested in the FA Cup fifth round onwards, after which the Premier League confirmed that the technology would be used in matchweek 32, on 12 April 2025. The Etihad Stadium was the first to officially use the technology, during Manchester City's match against Crystal Palace.

From 27 January to 20 February 2025, it had an impact rating of 3 on the Torino scale, reflecting its size and an estimated probability greater than 1% that it would impact Earth on 22 December 2032. The estimated impact probability peaked at 3.1% on 18 February 2025. By 23 February, additional observations effectively ruled out 2024 YR4 impacting Earth in 2032 and lowered its Torino rating to 0. Based on all observations up to a James Webb Space Telescope observation on 11 May 2025, there is a roughly 4% chance of impacting the Moon on 22 December 2032 around 15:19 UTC, with the asteroid expected to pass at 9000 ± 74000 km from the surface of the Moon.

The asteroid was discovered by the Chilean station of the Asteroid Terrestrial-impact Last Alert System (ATLAS) at Río Hurtado on 27 December 2024. When additional observations increased its impact probability to greater than 1%, the first step in planetary defense responses was triggered, prompting additional data gathering using several major telescopes and leading United Nations–endorsed space agencies to begin planning asteroid threat mitigation.

The asteroid made a close approach to Earth at a distance of 828,800 kilometres (515,000 miles; 2.156 lunar distances) on 25 December 2024, two days before its discovery, and it will be moving away from the Sun until November 2026. Its next close approach will take place on 17 December 2028. Analysis of spectral and photometric time series suggests that 2024 YR4 is a stony S-type (most likely), L-type or K-type asteroid, with a rotation period of approximately 19.5 minutes. A number of known asteroids, including other virtual impactors, follow orbits somewhat consistent with that of 2024 YR4.

It - Wicked (titled onscreen as *Wicked: Part I*) is a 2024 American musical fantasy film directed by Jon M. Chu and written by Winnie Holzman and Dana Fox. It adapts the first act of the 2003 stage musical by Stephen Schwartz and Holzman, which was loosely based on Gregory Maguire's 1995 novel, itself a reimagining of L. Frank Baum's 1900 novel *The Wonderful Wizard of Oz* and its 1939 film adaptation by Metro-Goldwyn-Mayer. The film stars Cynthia Erivo as Elphaba Thropp and Ariana Grande as Glinda Upland, with Jonathan Bailey, Ethan Slater, Bowen Yang, Marissa Bode (in her film debut), Peter Dinklage, Michelle Yeoh, and Jeff Goldblum in supporting roles. Set in the Land of Oz prior to Dorothy Gale's arrival from Kansas, the plot explores the early relationship between Elphaba, the future Wicked Witch of the West, and her dormitory roommate Glinda, who becomes Glinda the Good.

Universal Pictures and Marc Platt, who both produced the stage musical, announced the adaptation in 2012. After a long development and multiple delays, partly due to the COVID-19 pandemic, Chu was hired to direct, with Erivo and Grande cast in 2021. The adaptation was split into two parts to avoid omitting plot points and further develop the characters. Principal photography began in England in December 2022, was interrupted in July 2023 by the 2023 SAG-AFTRA strike, and resumed and concluded in January 2024.

Wicked premiered at the State Theatre in Sydney, Australia, on November 3, 2024, and was theatrically released in the United States on November 22. It received positive reviews, became a pop culture phenomenon, was named one of the best films of 2024 by the American Film Institute, and won Best Film at the National Board of Review. Among other accolades, it received ten nominations at the 97th Academy Awards (including Best Picture) and won Best Costume Design and Best Production Design. It grossed \$756.3 million worldwide on a \$150 million budget, becoming the highest-grossing Oz film, the highest-grossing musical film adaptation and the fifth-highest-grossing film of 2024. Since its release, the film has been included in lists of the best musical and fantasy films of the 21st century. The sequel, *Wicked: For Good*, is scheduled for release on November 21, 2025.
